Sri Manikanta Pamidi

Business Systems Analyst | Gainsight & Salesforce Admin | CRM & Customer Success Operations Specialist

Phone on request · sri.pamidi21@gmail.com · linkedin.com/in/sripamidi · Hyderabad, India · Open to Relocate

PROFESSIONAL SUMMARY

Result-driven Business Systems Analyst and certified Gainsight/Salesforce Administrator with 3.5+ years of hands-on experience supporting Customer Success and CRM platforms in global B2B SaaS environments. Experienced in Gainsight NXT administration across lifecycle management, health monitoring, workflow automation, expansion, reporting, user access, and data quality, alongside Salesforce administration. Skilled in translating business requirements into practical system solutions and working across Customer Success, Revenue Operations, Onboarding, Marketing, Engineering, and Data teams. Strong experience troubleshooting cross-system data and integration issues using SQL and platform observability tools, with hands-on experience across Gainsight, Salesforce, Rocketlane, Zapier, Looker, and Zendesk.

CORE COMPETENCIES

Rules Engine · Journey Orchestrator · Health Score & Scorecards · CTAs & Playbooks

Reports & Dashboards · C360 & Cockpit · User Management · QBR Workflows

Customer Lifecycle Management · Upsell & Cross-sell (Expansion) Workflows · Requirements Gathering & Documentation · Data Modeling

Data Quality & Governance · Process Mapping · System Integrations · Salesforce Administration

Looker · Zapier / Workato Automation · SQL & Data Analysis · Jira & Agile Delivery

WORK EXPERIENCE

Systems Engineer — Business Systems Analyst, CRM & CS Operations

Phorest · Contract · Remote / Dublin, Ireland · Apr 2024 – Present

Tools: Gainsight NXT, Salesforce, Rocketlane, Zapier, Zendesk, Jira, Notion, HubSpot, Honeycomb, Looker, AWS S3

Gainsight Administration & Customer Health

- Administer Gainsight NXT across Customer Success and onboarding operations, maintaining Rules Engine automations, CTAs, Playbooks, Journey Orchestrator programs, C360 views, Cockpit workflows, Gainsight Assist and Scorecard supporting onboarding, adoption, risk management and expansion processes.
- Maintain customer health and lifecycle data used by CSMs and regional leadership; investigate scoring and platform issues caused by incomplete rule execution, source-data inconsistencies, synchronization failures, and field-level errors.

Reporting & Data Quality

- Build and maintain Gainsight reporting and dashboards covering customer health, lifecycle stages, and operational metrics, replacing manual spreadsheet-based reporting with current system-driven visibility.
- Perform cross-system data validation using SQL, Gainsight MDA, Salesforce, Looker, and Honeycomb to identify data-quality issues, transformation errors, synchronization failures, and reporting discrepancies.

Business Analysis & Platform Delivery

- Gather and document requirements with Customer Success, Marketing, Onboarding, Sales Operations, and Engineering teams across DACH, UKI, North America, and Australia, translating operational needs into process maps, user stories, acceptance criteria, and platform changes.
- Take initiatives through functional design, configuration, testing, UAT, stakeholder validation, and production release; document workflows, system behaviour, data flows, and implementation requirements in Jira and Notion.

Integrations & Automation

- Maintain and troubleshoot integrations between Gainsight, Salesforce, Zendesk, Rocketlane, Zapier, and AWS S3, including data synchronization, connector configuration, integration users, permissions, and scheduled data flows.
- Improve reliability of connected systems by investigating integration failures, documenting dependencies, and coordinating fixes where issues cross multiple platforms.

Salesforce Administration

• Administer Salesforce through custom fields, page layouts, reports, flows, user access, sandbox testing, UAT, and production deployments; support automation and integration requirements across CRM and Customer Success processes.

Jr. Customer Success Enablement Manager — Business Systems Analyst

Sitecore · Contract · London, UK · Jan 2023 – Oct 2023

Tools: Gainsight NXT, Salesforce CPQ, Data Designer, Rules Engine, Journey Orchestrator, Amazon S3

Key Responsibilities

• Worked with CSMs, Regional Directors, and leadership to understand reporting, customer communication, and platform requirements and translate them into Gainsight configurations.

• Supported Gainsight MDA administration, including Salesforce, Amazon S3, and third-party data connections, Data Designer datasets and conducted regular data quality audits, and maintained data accuracy for a global CSM user base.

• Built and maintained a global customer health dashboard covering customer count, ARR, health status, ARR trends, and open risks/opportunities across parent and child company hierarchies — used weekly by regional leadership for QBR preparation and renewal planning.

• Configured and managed Journey Orchestrator programs for NPS surveys, internal communications, promotions, and transactional customer communications across customer segments.

• Supported the Lead → Opportunity → Quotation → Order Form process for training and certification orders, working with Sales Operations and Finance to improve the order-processing workflow.

KEY PROJECTS

Gainsight Customer Lifecycle Automation & Onboarding Process Mapping

• Built and maintained Journey Orchestrator programs covering customer welcome and onboarding communications, NPS/CES surveys, reconnect campaigns, expansion outreach, and EBR/QBR scheduling across multiple regions.

• Developed Rules Engine automations, CTAs, and Playbooks supporting onboarding, adoption, health-risk intervention, renewal, and expansion workflows.

• Investigated automation failures and customer-stage issues across Gainsight and connected platforms.

Gainsight–Salesforce Integration & Data Reliability

• Audited bi-directional Gainsight–Salesforce synchronization and investigated failures involving character limits, contact fields, field-type conflicts, permissions, and integration-user configuration.

• Traced data issues across Gainsight MDA, Salesforce, Zendesk, Looker, and connected workflows using SQL and Honeycomb.

• Reduced Zendesk-to-Gainsight synchronization latency by 7× through connector changes, improving the availability of customer data for health monitoring.

Rocketlane Onboarding Implementation

• Led Rocketlane implementation and ongoing administration, including requirements gathering, Salesforce/Zapier integration, project templates, customer portals, automated project-owner assignment, and stage-based communications.

• Built multi-language and multi-branch onboarding workflows to support regional operating requirements.

• Investigated project-creation failures, customer-stage inconsistencies, assignment issues, and automation failures across Rocketlane, Gainsight, and Salesforce.

AWS S3 & Gainsight Data Pipeline

• Designed S3-based ingestion workflows for historical and operational data including Go Live Dates, Payment/Sales data, and Reconnect history into Gainsight MDA.

• Resolved data transformation and field-type issues including String-to-Date mismatches; configured scheduled Gainsight/Looker exports to S3 for transformation and re-ingestion.

• Reduced Zendesk-to-Gainsight synchronization latency by 7× through connector changes.

CERTIFICATIONS

✓ Gainsight NXT Level 1, 2 & 3 Certified — Gainsight ✓ Gainsight PX Certified — Gainsight

✓ Gainsight MCP Essentials — Gainsight (June 2026) ✓ Certified Salesforce Administrator — Salesforce

✓ Rocketlane Administrator — Rocketlane (April 2025) ✓ PostgreSQL — Udemy

TECHNICAL SKILLS

Customer Success Platforms: Gainsight NXT, Gainsight PX, Rocketlane

CRM & Revenue Operations: Salesforce Admin, Salesforce CPQ, HubSpot

Business Analysis: Requirements Gathering, Workflow Mapping, Solution Design, User Acceptance Testing, Jira, Notion

Data & Analytics: PostgreSQL, Looker, Honeycomb, Gainsight MDA, AWS S3, Data Pipelines

Integration & Automation: Zapier, Workato, Zendesk, Typeform, Cognito Forms, GitHub, Gainsight MCP, Gainsight CLI

Other: Slack, HTML, Cyberduck, Jira Service Desk, Claude, Chat GPT

EDUCATION

MSc Engineering · University of Hertfordshire, UK · 2020–2022

B.Tech Mechanical Engineering · QIS College of Engineering and Technology, India · 2015–2019
